NOTE TO MAP USERS

The surface and mineral management status overlaps are published as general planning and management tools. Some of the information rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the status of the land. The official land records in the respective Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.

PUBLIC ACCESS

Roads crossing public lands may be travelled by the public unless closed by signs or notices by the land management agency. Public lands intervened by private lands may not have public access. Permission is required from the private landowner to cross private land, unless access is provided by a Federal, State, or County road, or a BLM road with legal access.
